

## MAPLES CLASS HOME LEARNING (FOR SCHOOL CLOSURE)

### Literacy

Think of your favourite story. What would happen if the story carried on? Write a sequel to your favourite story, saying what happens next to the main characters.

### General

Who do you find inspiring? They might be a sports person, a musician, an author, a politician, someone you know... anyone who you look up to. Investigate their life and make a mini-project on them. Don't forget to say *why* they inspire you.

### Numeracy

## A Bit of a Dicey Problem

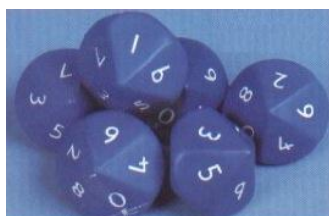

Look at these two dice. If you add together the numbers of dots on them, the total is 2 .

When you roll two ordinary six-faced dice like these and add together the two numbers, what results could you get?

Do you have more chance of getting one answer than any other?

If so, what is that answer? And why?

What if you use a dice with 10 numbers on, like these?

What answers could you get now?

Do you have more chance of getting one answer than any other?

If so, what is that answer? And why?
